

# Needlepaints™

## Needlepaint Choices

*The Needlepaint threads that I have used in my designs have been scarce and hard for me to supply.*

*I have compared other threads and now have a substitute for the shades. You cannot mix-and-match. The decision needs to be made before you begin stitching.*

*I have chosen the groups of needed new colors. Don't pick single numbers and try to match individual skeins. This is for you to use as a good set of shades to replace in a group. Exchange numbers in a group with a full set of the replacement Rainbow Gallery threads.*
